Captions on the posters prepared with colored illustrations related facts which included "Good or poor schools can make a difference in I. Q. of 10 points and more but stimulating or unstimulating home life yields a difference up to 25 points." Another poster read "Intelligence is like a set of muscles. Using it, we strengthen it."

One thought detailed by the panel was "How we need something more than our own little world for our mind to grow."

THE HARVEST

"While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."

Genesis 8:22

The harvest each year should remind us of God's great promise to man. This promise was made right after the great flood, from which only Noah and his Ark survived. Just prior to the flood, all men lived so evilly that it grieved the Lord that he had made man of the earth.

Today the churches stand as a bulwark against evil. Attend church regularly so that never again would man grieve the Lord as before.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

AUSTIN — State crack-down on loan abuses in the home improvement field is steadily widening.

Consumer Credit Commissioner Frank Miskell issued show cause orders against 16 home improvement firms and 16 individuals, alleging they are lending money at illegal interest rates.

Orders applied to firms in Houston, Dallas, San Antonio, Kingsland and Fort Worth.

"These cease and desist orders were but the initial step which will be followed by other legal actions as part of our comprehensive program to protect Texas consumers from abuse in the field of home improvement contracts," Miskell said.

Companies and personnel were directed immediately to stop any activity in violation of Texas' Regulatory Loan Act or new Consumer Credit Code.

Practices complained of include cash advances on home improvement loans (primarily for debt consolidation) as an inducement for contracts at interest rates over 10 per cent. Some interest rates, an aide to Miskell said, range from 18 to 24 per cent.

A Houston finance company has filed suit in district court here, challenging Miskell's authority under the Regulatory Loan Act to regulate its purchases of discount notes executed by homeowners to improve contractors.

OIL ALLOWABLE UN-CHANGED — Railroad Commission set December oil allowable factor at 40.8 per cent off potential, same as November.

Maximum production of 3,375,866 barrels of oil is possible under factor.

Nueces County Gulf of Mexico oil-gas lease totalling 1,440 acres brought the top bid of \$129,787 from Cities Service Oil Company. Top sulphur lease bid was \$1,056,323 by W. C. Tillet for 553 acres in Culberson County near Van Horn.

Land Commissioner Jerry Sadler reported that the permanent school fund now totals \$742,338.369.

CONSTITUTION AMEND-ED — Texas' 91-year-old Constitution, as a result of Nov. 11 elections, has six more amendments.

Voters approved all six proposed new amendments.

Also, as a result of the general election, Texas has a new Republican senator, 35-year-old Dallas lawyer Ike Harris. Republicans are in run-off races with Democrats next month in all six districts which have House vacancies. Two of the districts are in Houston, one in Austin, one in the Rio Grande Valley, one in Wharton and Matagorda Counties and the other in Bailey, Cochran, Hockley, Terry and Yoakum Counties of West Texas. GOP candidates led November voting in all but the Valley district.

COURTS SPEAK — State Supreme Court has set a Jan. 24 hearing on a damage suit arising from a chartered plane crash that may result in new legal guidelines for cases involving Texas citizens killed or injured in out-of-state accidents. Question is whether damage recovery ceiling of Texas or state where accident occurred applies.

High court upheld lower court decisions that Carrollton-Farmers Branch Independent School District could not legally expel two students because they got married.

Bidding averaged \$45.27 an acre on 54,950 acres of oil and gas lands. Sulphur leases

Montgomery Ward was inefficient in handling the charge account of a Danbury lawyer, top state court agreed, but ruled out damages, finding no intentional or malicious effort to harass him over collections.

In another case, Supreme Court threw out an appeal of a driver who claimed suspension of his license was not proper because one of the traffic convictions which suspension was based on was invalid.

Court of Criminal Appeals held that a man who voluntarily confessed murder to police before he was arrested cannot use as a defense contention he did not get warning as to constitutional rights on confessions.

ATTORNEY GENERAL

RULES — Atty. Gen. Crawford Martin held that the Department of Public Welfare must furnish monthly reports containing names of those seeking aid to blind to the Department of Public Safety so their drivers licenses can be promptly revoked under a new law. Opinion said 1941 law prohibiting disclosure of welfare applicants no longer applies in this particular case but does apply in other situations.

Department of Public Safety, Martin concluded in another opinion, has authority granted by the Legislature this year to purchase land for subdistrict headquarters in El Paso which already has a suitable building to house operations located on its Legislature appropriated funds to buy property and construct sub-district headquarters.

APPOINTMENTS — Victoria farmer and cattleman Sidney Dean was selected head of the Texas Farm Bureau following a four-day convention here. He succeeds C. H. DeVaney of Coahoma. M. F. (Mike) Frost of McAllen was elected vice-president and Steve Lilly of Nacogdoches secretary-treasurer.

Speaker of the House Ben Barnes appointed Reps. R. H. (Dick) Cory of Victoria and Bob Armstrong of Austin to the Texas Commission on Law Enforcement and Administration of Justice. Lt. Gov. Preston Smith earlier named Sens. Jack Hightower of Vernon and Jim Bates of Edinburg to the key study group.

Barnes also appointed Armstrong, Rep. Elmer Tarbox of Lubbock, Austin architect Howard Barr, consulting engineer Bernard Johnson of Houston and landscape architect Robert H. Green of Houston to Committee on Relationship Between Architecture, Engineering and Landscape Architecture.

Lloyd F. Palmer of Dallas was named general manager of the Texas Safety Association.

Jaycees Host Area Visitation Monday

The Hamlin Jaycees hosted the regional visitation meeting of Area II here Monday night in the Jaycee Community Building.

The local members served the evening meal for visitors from Haskell, Abilene, Stamford and Ballinger.

About 45 men were present. The visitation is held once monthly and Jaycee members in the region get together for an exchange of ideas and discussion concerning the work and projects of the Jaycees.

Area Residents May Be Losing Medicare Money

A number of Big Country folks could be losing Medicare payments, advises R. R. Tuley, Jr., District Manager of the Abilene Social Security Office. Indications are that some folks who had medical expenses covered by Medicare's medical insurance for July-December 1966 have not yet made their claims for payment. Their claims can still be paid now, but loss could result by delaying too long, Tuley reports.

Many may be waiting until all of their medical bills are paid. In most cases, this is not necessary. If the doctor or medical supplier will accept assignment of his bill from Medicare, payment can be made immediately. Also partial payment can be made in most cases where the total bill is not yet paid. Those who have Medicare coverage and incurred medical bills for 1966 should file their claims before December 31, 1967.

"The Abilene Social Security Office can give further information and assist with these claims. We urge all our Big Country folks to do this now," Tuley says. Persons unable to come to the Abilene office should check at their local post office for a schedule of visits by a representative of that office and meet him when he is at a nearby contact station, he added.

Walking papers for the Windmill...

An electric pump is cheaper to install than the windmill and it pumps water whether or not the wind blows. With the MIDWEST ELECTRIC COOPERATIVE offering a dependable low-cost electric service, the modern efficient way to pump water is electrically. You still see friendly windmills over the state but mark them well. Old "high lonesome" has his walking papers. The day is coming when the only spot for a windmill is where there's no electric power. Such spots are fast disappearing thanks to the member-owned MIDWEST ELECTRIC COOPERATIVE which is brightening the rural scene while Helping Texas Grow.

HHS Students Looking Forward To Long Thanksgiving Holidays

Beth Craig, Janet Carson, Tommy Oliver. For many reasons, HHS students are glad the Thanksgiving holidays have finally come. Good food, no school and return of college students are probably at the top of the list.

Classes will be dismissed today (Wednesday) and will be resumed Monday morning.

A film, LSD Insanity or Insight, was shown to the junior high and high school students last Friday afternoon in the high school auditorium. Several parents attended. Sponsored by the Taylor-Jones Medical Auxiliary, the film showed the dangers to young people brought on by marijuana and LSD.
